

## In Line Dimmer: Impulse

## ID-00-01

- MAINS SWITCHED 1/10V 1000W In-Line Dimmer
- USES EXISTING Switch Plate Wiring
- CONTROLLED BY Any Momentary Switch
- CONFORMS TO EC EMC and LV Standards
- ON, OFF, DIM UP, DIM DOWN Functions
- MULTI-POSITION Dimming Control
- FULLY ISOLATED Switch Plate Input
- OPERATES 1-10V Fluorescent
- MODE products are guaranteed for two years.

Impulse

### TECHNICAL DATA

	ID-00-01
<b>Circuit Supply</b>	200 - 250 Volts, 50 - 60Hz
<b>Channel Output</b>	1000 Watts resistive or 500 Watts inductive.
<b>Channel Fuse</b>	IEC60127 6.3 Amp. (F) (spare fuses available from Mode).
<b>Output</b>	Switched mains output 1-10V dimming.
<b>Control Input(s)</b>	Isolated input(s) from Volt free switch.
<b>Case Material</b>	Flame retardant Polycarbonate to UL94-VO
<b>Case Colour</b>	Black

	ID-00-01
<b>Overall Length</b>	150mm
<b>Overall Width</b>	49mm
<b>Overall Depth</b>	35mm
<b>Weight</b>	150g
<b>Standards</b>	Complies with EC EMC and LV Directives
